Boxy For Email Mac

The \$5.99 app is an Inbox by Gmail client for Mac and brings with it the ability to snooze emails, pin important emails, and quickly navigate through your inbox. Boxy is the absolute best client for 'Inbox by Gmail', the future of email. It gives you all the powerful features of 'Inbox', with the convenience of a native client. By and large, it's essentially featured on The Verge, The Next Web, Charged, LifeHacker, MacWorld, Netted by The Webby's, The Modern Desk and Gear Patrol -- This is the email client you'll finally love using. Boxy works with any Gmail account! Visit google.com/inbox (to discover Inbox!) = What makes Boxy an amazing email client? = * Modern, clean, responsive interface * Multiple accounts and multiple windows support * Reader Mode, for an awesome email reading experience * Multiple Themes.
